Re: Transportation Return

Dear Gibraltar Families:

With support from the Gibraltar Board of Education, the Gibraltar School District is excited to announce the return of transportation for athletics! After careful and ongoing review of the athletic budget, this is possible at NO additional cost to our student athletes. Ensuring the safety of our student athletes always has and continues to be priority one. Providing transportation helps to accomplish this goal.

The return of athletic transportation will include providing busing for all weekday, away athletic events. The middle school will have two-way busing, meaning that buses will be provided to and from away events. All middle school students are expected to return on the bus with their teams. High school teams will have one-way busing to weekday, away events meaning families will be required to arrange transportation for student return. While this is new for our high school students who are used to driving to their athletic events, they are expected to ride the bus to their away events with the team. It is important to note that some high school teams may elect to fundraise for the extra cost of a bus trip home.

We are thrilled to bring this exciting opportunity back for our student-athletes and their families.

Sincerely,

Dan Kalbfleisch
