## Hippo Harassment

By: Neal Jayaraman

Weird slashes, personality change and a dead hippo. Who committed this terrible crime? On Sunday February 26<sup>th</sup> 2017 an iconic hippo in El Salvador died. His name was Gustavito from El Salvador's National Zoo. A few days before his death, he appeared to be acting strangely. They approached the hippo and found something shocking. The hippo's body was covered with bruises and cuts.

Zoo officials don't know who the culprit is. Veterinarians tried to heal him but he sadly died from the fatal wounds.

Zoo officials plan to do a necropsy (Which is an animal autopsy) on Gustavito. In the meantime authorities are doing what they can to find the hippo murderer. Social media is roaring with Gustavito's death. 8<sup>th</sup> grader Brady Helka understands why people are so passionate when it comes to animal

abuse, "It's because they can bring happiness to your life and may be a friend." Alex Brockington of 8<sup>th</sup> grade knows what may motivate a person harass an animal, "Having anger and unleashing it uncontrollably." Will the killer make strike again? Now the fate of Gustavito's deserved justice lies in the hands of the authorities.

## The Newly Discovered Dinosaur

By: Kurtis Gile

A dinosaur that lived 160 million years ago had drumstick-shaped legs much like living birds, according to paleontologist. The feathered dinosaur also bird-like arms similar to wings. Scientist used high-powered lasers to reveal invisible details of what the creature looked like. The research could give insights into the origins of flight, which is thought to have evolved more than 150 million years ago

Alyssa Dummar a Shumate middle school student "It is wonderful that we found an amazing creature: I've been fascinated with beautiful and awesome creatures and can't wait to hear more about the discoveries of new dinosaurs". Michael Pittman of the University of Hong Kong said "study was a landmark in our understanding of the origins of birds. In this study, what we've used high-powered lasers to reveal unseen soft tissues pre-

served alongside the bones of a feathered dinosaur called *Anchioris*," he said. The research team used laser-stimulated fluorescence imaging, a technique that reveal soft tissue details that are unseen under visible light. The method involves sweeping laser light across a specimen while taking long-exposure photos with a camera. It is not clear whether *Anchiornis* could fly or glide. *in conclusion Scientist are finding new dinosaurs and are breaking down the past.*

Volume 3, Issue 3

3/6/17

### Special points of interest:

- *PSAT for 8th graders is on February 24th*
- *Buy your pink heart to support children with hairloss*
- *Cedar Point money and permission slip due Thursday, March 30*

## 7th Grade Shumate Basketball vs Melvindale

By: Cece Cuevas

Your 7<sup>th</sup> grade Shumate basketball team won another game against Melvindale, making their record 9-2. Some of the stand out performances were from Emma Shimizu, and Alyssa Houser, 2 talented players on the 7<sup>th</sup> grade Shumate basketball team. Emma, Alyssa, and the team worked hard to beat the Melvindale Cardinals. This game happened Monday, February 28<sup>th</sup>. Coach Mentzer has helped improve the 7<sup>th</sup> grade

team, and have developed many basketball skills throughout the successful season.

Emma Shimizu felt really proud about how her team played yesterday against Melvindale. "I think we made a lot of lay ups and steals which is where most of our points came from." Although the 7<sup>th</sup> grade basketball team played very well, there are some things that the team could've done better. Emma said, "I think we could've had better passes to each other. We should've passed

more to each other so we could have gotten around the defense easier." The season of Shumate basketball is almost over, so come support your Shumate basketball team on Wednesday, March 1st against Woodhaven!

## Shumate 8<sup>th</sup> Graders Take The Win!

By: Taylore Jones

On Monday February 27<sup>th</sup>, the 8<sup>th</sup> graders took home the win against Melvindale with a final score of 31-11. During the game the girls worked hard to play aggressive defense and take home the win. The girls have improved a lot over the season thanks to the great coaching of Coach Lebrun! Some standouts in

the game were Sam Stanaway and Cece Cuevas.

Cece Cuevas who plays point guard said, "We played well as a team this season because at the beginning of the season, we were still getting used to each other but as the season went on, we started improving." Also, Sam Stanaway who plays a guard said, "We improved a lot over the season and we got better as a team." The girls take on Woodhaven on Wednesday for their final game!

## Wrestling is Over

By: Anthony Greear

This Shumate wrestling season is over. With an amazing 7-2 record, only losing to Melvindale and Wyandotte. The Shumate wrestling team had an overall winning season. Shockingly, at the end-of-season party, Coach Nappo had a big announcement. The Shumate Wrestling Coach told the team that this year of coaching would be his last year. After 32 years of coaching, Coach Nappo plans on finally taking a vacation. The SMS Wrestling banquet was last Monday 2/27/17 when coach told the team the sad news.

Tarin Fountain, a wrestler for SMS, went this season with a 15-1 record. Frank Gomez and Tarin Fountain both 8th graders at SMS were asked about their overall season. Fountain said "This whole season I had 1 loss and I wish I could wrestle that much again." Gomez said, "Yes, I worked my hardest, I practiced hard and put in extra work." Gunnar Dochnal, an 8th grader at SMS, thought the season went well and that he got better as a wrestler too. Gunnar said, "The season went well because everyone improved, and I improved this season because I put in extra work." The wrestling season will

go down as one of the most successful in history due in large part to Coach Nappo and his wealth of knowledge, dedication to the athletes and overall love of the sport. He will be missed.

## Spartans Spirit

By: Ethan Hall

Are the Spartans rising or falling? The Michigan state basketball team beat the badgers 84 — 74. Nick Ward has doing great with 22 pts, and 9 rebounds. Bridges did good also with 17pts, 7 rebounds, and 4 assist. Overall the team had an impression game. So are they falling? Chris Fisher from 8<sup>th</sup> grade said “No because the Spartans have been playing great lately”.

They're next game is in Illinois at March 1, 2017 9:00 pm on BTN. Will they be able to beat them? Jess Lakos said” no, the Spartans need to pass the ball more often in games”. Two teams with almost the same record (Spartans record is 18-11 and Illinois has a record of 17-12). This is going to be a good one, I can tell you that for sure. On the other hand, injured player Eron Harris was able to play one more time as a Spartan. On senior's day he was able to play with

a knee injury, and his Mother, Marveda Saunders got to sing the national anthem in the game. Overall, you can overcome any objects if you work hard.

## Do the Red Wings Have a Chance?

By: Braylon Smith

The Red Wings came out with a win after a close game against the Vancouver Canucks on February 27, 2017 and are now 9 points behind the Toronto Maple Leafs in the playoff picture. They just might be able to pull off making it to the playoffs, and maybe winning a couple series to bring home that Stanley Cup that hasn't been in Motown since 2008. If they can keep winning games, as they are

3-2 in the last five games, maybe they can turn it around and make those playoffs.

As the Red Wings could possibly make the playoffs should they even try to make the playoffs or should they just focus on next season? If they do make the playoffs what is the chance they make it far and win the Stanley cup or even win the first round? Well, Evan Green an 8<sup>th</sup> grader says,” I think they should focus on next season because there is a very small

chance they are going to make the playoffs and even if they do they aren't going to make it far.” Will the Red Wings make the Playoffs? We will see.

## Pistons Drama

By: Avery Harrelson

Retired Pistons player Richard Hamilton who played in Auburn Hills from 2002-2011 Jersey was retired Sunday night at The Palace. Ben Higgins, frequent sport watcher said “It's a good way to honor him because of his 9 years he spent with the Pistons and their 2004 championship win” It was a very memorable night at The Palace as Hamilton's number 32 jersey was lifted in the rafters next to Billups number 1 jersey his former teammate.

Reggie Jackson a starting point guard for the Pistons is recovering from a injury and hasn't been playing right after his injury. A current basketball player Courtney Moore said “I think bad they just to let him rest” He's been playing this year but not playing like himself. Ethan Hall a, former basketball, player said “He's a very good player but just not putting up his regular numbers.” Andre Drummond their starting center, was out around the same time Jackson was out which really hurt the team.

## Soaring into Student Spotlight

By: Alyssa Dummarr

Courtney Moore is an 8<sup>th</sup> grader at Shumate Middle School. She's been in the district for 9 years and went to Weiss Elementary School. Some sports that she that she played for Shumate were "Basketball for 7<sup>th</sup> and 8<sup>th</sup> grade, She was on the Volleyball team 7<sup>th</sup> grade and 8<sup>th</sup> too, she also ran track in 7<sup>th</sup> grade. But out of school she plays soccer. "My dad encouraged me to play these sports." Courtney plays these sports every

week. Hopefully she succeeds in all these sports and continues to these sports in the future.

Courtney enjoys watching movies one of her favorites "Insidious 2." This is a scary movie and Courtney says "There's a good story behind it." Maybe if you can't think of a movie you could try it if you like scary movies. Some types of music listen to is "pop and rap." One of her favorite artist is Drake. She listen to this type on music on "a daily." Next time you see

Courtney in the halls ask her about the sports she plays if you are interested in them or just say hi. Stay tuned for next week Student Spotlight

## Get to know Marissa

By: Lyndsey Mitchell

Marissa Brock is a 7<sup>th</sup> grader at Shumate Middle School. Marissa has been in the district for 9 years and went to Chapman Elementary. Marissa plays basketball for the seventh grade girls basketball team. She started playing basketball at the beginning of tryouts and hasn't played for any other team besides Shumate. What Marissa likes most about bas-

ketball is, "The aggressiveness." Marissa plans to continue playing basketball in the future.

With the girls basketball season coming to an end, Marissa gave a small overlook of the season. The biggest highlight of the season was, "When we won against Woodhaven." Marissa also mentioned that so far the team has won 6 games. Marissa hopes to play basketball for her 8<sup>th</sup> grade year at Shumate and plans to

play for Carlson as well. Marissa also enjoys to play softball. She started playing when she was just 3 years old. Her favorite part about playing softball is pitching. The next time you see Marissa around school say hi and ask her about softball or basketball. Stay tuned for next week's student spotlight!

## Beginning of The End: School

By: Tristan O'Neill

The end of the 3<sup>rd</sup> quarter is coming to a close, the last day of the marking period is 3/30. To cope with the pain, this year there will be multiple end-of-the-school year events. One such event is the Cedar Point trip on Monday, June 12<sup>th</sup>, the cost is \$100, be sure to turn in your permission slip by March 30! The trips are only for those with good behavior, and if you have a suspension you cannot go. Many Shumate students are very anxious to go. One such student is an 8<sup>th</sup> grader

named, Jacob McKay, "I'm super excited!" Stay tuned for more information about the field trips next week.

Homework House is on a roll! Homework House is an after school program that helps students with homework and tutoring. Homework House is run in Mrs. Iott's computer lab on Tuesdays and Thursdays and is a very useful program for kids that are struggling. One such believer of that statement is an 8<sup>th</sup> grader named Noah Gronda, who said, "Yes, it (homework house) helps students get homework done where there are no

distractions." Anyone can attend this afterschool event and there is a bus to drop you off at home.

## Science & Cedar Point

By: Breanna Parker

The Building STEM Savvy in Middle School Girls, and the fun 8th grade Cedar Point Field trip. These trips are for schools to let girls be interested in the field of science and the other is a fun trip to take a break from school work.

8th grade Science teacher Mrs. O'Neil, was asked is it fair only girls get to attend this STEM science "The goal is to have more women in the science field, because men dominate math

and science so yes it is fair". 8th grader Jesse Dowding "Most scientist are male and we need more female scientist, so yes it is fair." This takes place Thursday, May 11, 2017 from 7:45 am till 1:30 pm at Wayne County Community College District-Downriver Campus (21000 Northline Rd, Taylor, Michigan).

Cedar Point Field trip coming soon, 8th grader Ricky Kamen who loves trying new things "Cool and really fun

my favorite part is the roller coasters". Ruby Fleming 8th grader "I'm excited to go on the trip with all my friends and ride all of the rides!" What are your thoughts on Cedar Point field trip?" Cedar Point will take place on the last day of school, if you're attending you will be proved with free drinks all day and a wrist band after paying for this trip and also you will have a lot of fun.

## Brighten up the Makeup

By: Madison Horetski

As the winter fades away, cover up saves the day! Experts and Makeup artist from total beauty ([www.totalbeauty.com](http://www.totalbeauty.com)) reviews The Makeup Forever extreme camouflage concealer (\$34) has a rating of 9.2 out of 10. They say it has a very smooth application and amazing coverage, one reader states "This is the best concealer I've tried to far. It has full coverage and is long lasting, the best

part is it's also waterproof!" It also mentions that you should moisturize your face before applying any makeup to prevent clogged pores filled with toxins causing acne.

There are many different kinds of makeup, some are better for others. Keep reading for makeup that might be good for you! Kaylee Folding a former 8<sup>th</sup> grade basketball player said "My favorite concealer for spring time or just in general would have to be urban decay because it's very full coverage and comes in handy when I

break out" Another former 8<sup>th</sup> grade track student Taylor Martin says "I wear better skin (a drugstore product) as a liquid product all over and L'Oréal True Match Powder to set my face it also adds more color to my skin, both of these are very full coverage. Different makeup from different places effects people skin in either good or bad ways, maybe go to your local store and try some out that seem just right for you!

## Adventure of life

By: Brendan Maher

An only once in a life time Adventure, Voyage that only selected people can go on, if lucky it might be you. You would take a different textured Balloon/Blimp chute that inflates up and can hold an average human's body weight and will take you nineteen miles upwards into the atmosphere. In the future this technology will develop into pods to hold multiple people at a time onto a great voyage. The current technology is represented as if a regular person on a regular parachute but way more advanced with you

wearing a special space suit to avoid certain object and to help with your oxygen levels. The chute itself is advanced with a clear spheroid look that inflates and will take you up on your great journey. This it was such a great breakthrough that it was reported all over different CNN news platforms. ([CNNstudentnews.com](http://CNNstudentnews.com))

The point of people actually doing it and how they feel matters also. An 8<sup>th</sup> grade student, Jacob McKay at Shumate Middle School that was in 3<sup>rd</sup> hour and is a big fan of things that involve Science-Fiction novels and shows said, "Personally I would not

go on this adventure because it's too high and it would scare the heck out of me and he would feel major Adrenaline." Another student from Shumate Middle School, Jonny Smith that is a fan in things that involve NASA said, I would not also go on the voyage because he would be socially disconnected from the world and feel very claustrophobic in the space suit and alone." That is how people feel for this voyage and I wouldn't blame them it might take some training to get used to such conditions for something that is so adventurous but personally I would prefer this fantastic voyage.

## The Oscars 2017

By: Ben Higgins

The Oscars is an event that the most famous celebrities go to in order to reward actors, actresses, directors, and many more in the name of film. This year was the 89<sup>th</sup> Academy Awards which were hosted by Jimmy Kimmel. Every year they nominate movies for Best Picture and this year the nominees included: *Moonlight*, *La La Land*, *Arrival*, *Hell or High Water*, *Hidden Figures*, *Hacksaw Ridge*, *Manchester by the Sea*, and *Fences*. Yet, when they announced

the winner of Best Picture, there was a mistake. When announcing Best Picture they called *La La Land*, although it was pointed out the true winner was *Moonlight*.

There was talk of the mistake here at Shumate Middle School. Fellow Student and 8<sup>th</sup> grader Joey Gailley said, "I feel that it was unprofessional, and the C.E.O. of the accounting company that oversaw the voting should be blamed." Another 8<sup>th</sup> grader, Brock Hunter, said, "I thought it was funny because they were so excited then they got the word that they

didn't win and I thought they'd cry." Although there was the one bump in the show the rest went smoothly, winner for Best Actor was Casey Affleck, Best Actress was Emma Stone, and Best Animated Feature Film was *Zootopia*. In the end it was still a good show, but let's just hope next year they're more careful.

## Oscars 2017

By: McKenzie Cools

Many hardworking celebs earned an Oscar last Sunday. On the 26<sup>th</sup>, at the Dolby Theater in Los Angeles, Jimmy Kimmel was the host for the Oscar's for the first time this year. They made one mistake, they gave *La La Land* an award for Best Picture when *Moonlight* was meant to get the

award. *La La Land* had 14 nominations. The Oscar's were the most watched non-sporting event on TV this year.

Many fans had shared some of their feelings about this year's Oscar's. Hannah Petty, an 8<sup>th</sup> at Shumate said, "It was really interesting to see all these celebrities get what they worked hard for." A lot of celebs had

worked really hard to get a trophy. Taylor Martin, another 8<sup>th</sup> grader at Shumate said, "I was very pleased with who won because they work very hard to get where they are today and always works to please their fans and others." The Oscar's were an iconic moment of the year and many fans were very pleased with the results.

## Oscar Fashion

By: Hope Gill

The 2017 Oscars was hosted at Dolby Theater in Los Angeles California on February 26, 2017 at 7pm eastern time. Many actors and actresses were nominated for an Oscar because of the movie or movies they have acted in. The actors and actresses dressed in their finest and looked amazing. The dresses were very expensive designer clothes, like Gucci, Dior and many more. The Oscars is a very high honor for actors.

Emma Stone a award winning actress was a big hit at this year's Oscars. She stepped out in a gold, Swarovski

crystal-embroidered gown. She looked phenomenal. Ana Campbell, a 8th grade girl who believed Emma Stone's dress complimented her looks. "I think the dress she wore really complimented her looks very well and she looked very pretty." Another thought on Emma dress was surprising but humorous. Shane Meyers a 8th grade boy who liked the dress but had other thoughts about it, "It's very shiny, very nice but she looks like a golden peacock." Emma Stone was the first lead actress to win an Oscar in Givenchy since Audrey Hepburn.

## Spring Break!

By: Jewels Barela

.Spring break is coming up and that means its vacation time for everyone so where and what are you going to be doing? Spring break will be from April 10-14 (the week before Easter) This year the holiday falls before the actual holiday.

Here's what Taylor Martin said who does Shumate track, "I'm going on

and trip with my family to Frankenthuth." "I am going to Florida, start training for track season and football," said Tony. "I am going to Myrtle Beach with my family," said Alexis Howe. "I am going to Florida with my family," said Hannah Petty. Dress for the weather, get ready for sunny days, I hope you are all ready for spring break!

## Split

By: Olivia Struski

Have you ever felt like you have had more than one personality or even several? On January 20th, 2017 the movie Split came to all theaters. In the movie the main character Kevin has twenty-three personalities that make it possible for him to feel like a different person every time he switches. Kevin not only changes the way he acts but also his clothing, voice, and looks. Kevin fits himself for each character that he changes to. If you're looking for a chill seeking thriller mov-

ie with a few laughs throughout, this is the perfect movie for you! This all happens when Kevin captures three teenage girls Casey, Marica, and Claire and keeps them captive in the bottom of the Philadelphia Zoo until the last personality "The Beast" takes care of the girls. Except Casey, She is very brave and keeps both her feet on the ground and fights back.

Karly Yessian an 8th grade student said, "My favorite personality of Kevin's was the young boy this is because he was the funniest, and kept

people laughing throughout the whole movie also because he was one of Kevin's main personalities." Also 8th grader Breanna Parker stated, "I would rate this movie a 4/5 this is because it was a very good and interesting movie it had a few parts to make you jump but also had a few funny parts. Yet, the setup of the movie Split was somewhat confusing, sometimes throughout the movie I had to stop and re-think what happened." If you are interested in watching this thriller movie you can find it at any theater as of January 20th.

## Red Queen

By: Ana Campbell

What do you think you would do if your world was divided by blood? Would you fight? Would you cower away in fear? Mare Barrow has to make this decision at only 17. She, along with the rest of her family, have red blood. This means they have to serve the supernatural Silver bloods. Mare soon decides to fight against the discrimination and join a rebellion. She gets caught fairly soon by the Silver bloods. But as soon as the silvers and herself find out that she has powers of her own she is made to look like royalty. The leader of the

elites, betroths Mare to one of his own sons. When she learns to control her own powers, Mare must decide what she will do with these newly controlled powers and who to use them against.

*Red Queen* has two more books in the series and counting. Since the first book was so popular it wouldn't be a surprise if the other books became just as popular. 8<sup>th</sup> grader Elizabeth Gabbard and huge fan of the book said, "I thought the first book was very well written and it ended in a cliffhanger so I want to read the next ones (books)." Seeing how well people like these books

maybe you could recommend this book to your friends. Shay Kenniburg who also loves this book said, "I really think it is a well written book." So if you haven't already read the book *Red Queen*, the sequel *Glass Sword*, and the third installment so far *King's Cage*.

## The Nintendo Switch

By: Brendon Buchanan

The Nintendo Switch is a gaming console made by Nintendo that is unique in the way the controller is. You can make the controller one piece by putting both of the joycons together or you can break apart the controller to get the Wii's nun chuck and controller vibe. Another cool feature of the Switch is that there is a

screen that comes with it so you can have the on-the-go gaming and the in-the-house gaming console. The Switch will be about \$300 and games should be around \$60 each. The Nintendo Switch will be coming out on March 3<sup>rd</sup> 2017.

After speaking with James Davis, an 8<sup>th</sup> grader at Shumate Middle School who enjoys playing video games, he said "It's going to be like the new version of the Wii U but it's gonna' be better, and I like how you can hold the Switch the way you want to hold it". Also, Alex Brockington, an avid player of Nintendo games, said, "I would get Skyrim remastered and The Legend of Zelda: Breath of the Wild if I

get the Nintendo Switch". The Nintendo Switch's screen is a little bit bigger than an iPhone 7 plus and has a stand on the back to place on a table. I might pick up one of these consoles as long as it doesn't turn out to be a total failure.

## Guardians of the Galaxy

By: Shane Meyers

Traveling through space with a tree and a raccoon that talk represent Guardians of the Galaxy. A team with a tree, a raccoon a green assassin and a guy named Drax and lastly Starlord. Although it is by far one of my favorite movies because it has the perfect amount of humor and action. It happens in space. And they are trying to get one the infinity stone called the power stone to save the planet. But

the stone is in a hammer captive by Ronan. And if the hammer

touches the ground it will kill everything it touches. so they have to prevent it by fighting his army and Ronan himself. But they have help from a team called Nova Core. They help take Ronan down and his army.

I love Guardians of the Galaxy because it's funny and has a lot humor and a lot of references. Johnathan Smith a 8<sup>th</sup> grade student that goes to Shumate middle school said "good plot" which

ie watch Guardians of the Galaxy, you won't regret it

I agree on. The plot is very good and if you wait till the after credit seen there a good reference. Another 8<sup>th</sup> grade student Tristan O'Neill said "Very interring" with is a good way to explain the move so if you're by a Redbox and want to see a good mov-

## Life in the Day of Cupid

By: Brianna Kerkaert

Hello there lovelys, my name is Cupid! And I am not a full grown baby shooting arrows at people, no! I am a woman, okay? So stop with that trying to assume me! Okay? With that done lets get on to my life.

Well mostly everyday I find desperate single people and then I would use my arrows to make them in love! I don't always do this unless they need major help. Mostly the dating apps help those single people and that helps me out a lot! But each time I help someone, deep down I wish I had love...but I cant have that

so I just keep on going through my day. Finding people then shooting arrows at them to fall in love! Then it would be time to go back to my beautiful, lovely house in the sky. Oh how beautiful it is on top of the cloud! Next, I would chill out in my house for my personal time, like video gaming. You might be thinking, why would cupid be like playing video games? Well lovelys, I only like playing match making games; what did you expect? After my chill time it is time for dinner and oh how I love cooking. Shaping food into a heart or coloring it pink or red! Then finally, it would be my bedtime. I would just roll up into a small little ball and go

to sleep. Then I would have to repeat it again, it never ends! Ugh. Well that means its time for you to go. Bye my lovelys!

XOXO Cupid

Nothing is

IMPOSSIBLE,

the word itself says

“I’m Possible”
